ABOUT **BIOBRIDGE GLOBAL**

BioBridge Global is a San Antonio-based nonprofit organization. Through its subsidiaries, it provides a variety of blood products and donated tissue, testing, and biomanufacturing services to local and global customers.

Integrating donor-to-patient services to enable the future of biotherapeutic solutions.

South Texas Blood & Tissue is an AABB accredited blood bank. It operates nine donor centers in South Texas and distributes blood, plasma, platelets, and other components to regional hospitals and emergency first responders. It also provides starting materials to therapeutic developers.

As an AATB accredited tissue bank, South Texas Blood & Tissue offers tissue recovery from living and deceased donors.

- ▶ Transfusable blood products
- ▶ Leukopak collections
- ▶ Peripheral blood stem cell collections
- ▶ Perinatal tissue (placenta and umbilical cord) collections
- ▶ Umbilical cord blood for transplant and research
- ▶ Deceased donor recoveries
- ▶ cGMP and RUO products
- ▶ FACT accredited apheresis center
- ▶ Immunohematology reference laboratory
- ▶ Research donor registry
- ▶ Clinical research support for CRO and blood technology industries

QualTex Laboratories is an FDA registered and CLIA accredited organization that provides state-of-the-art, high volume capacity donor screening and biological testing services. It is one of the largest independent, nonprofit testing laboratories in the United States and has locations in San Antonio and Atlanta.

- ▶ Donor screening (whole blood, plasma, HCT/P)
- ▶ Environmental monitoring and microbiology
- ▶ HCT/P testing
- ▶ GMP cellular therapy testing
- ▶ In-process manufacturing QC testing
- ▶ Release testing
- ▶ Custom assay development

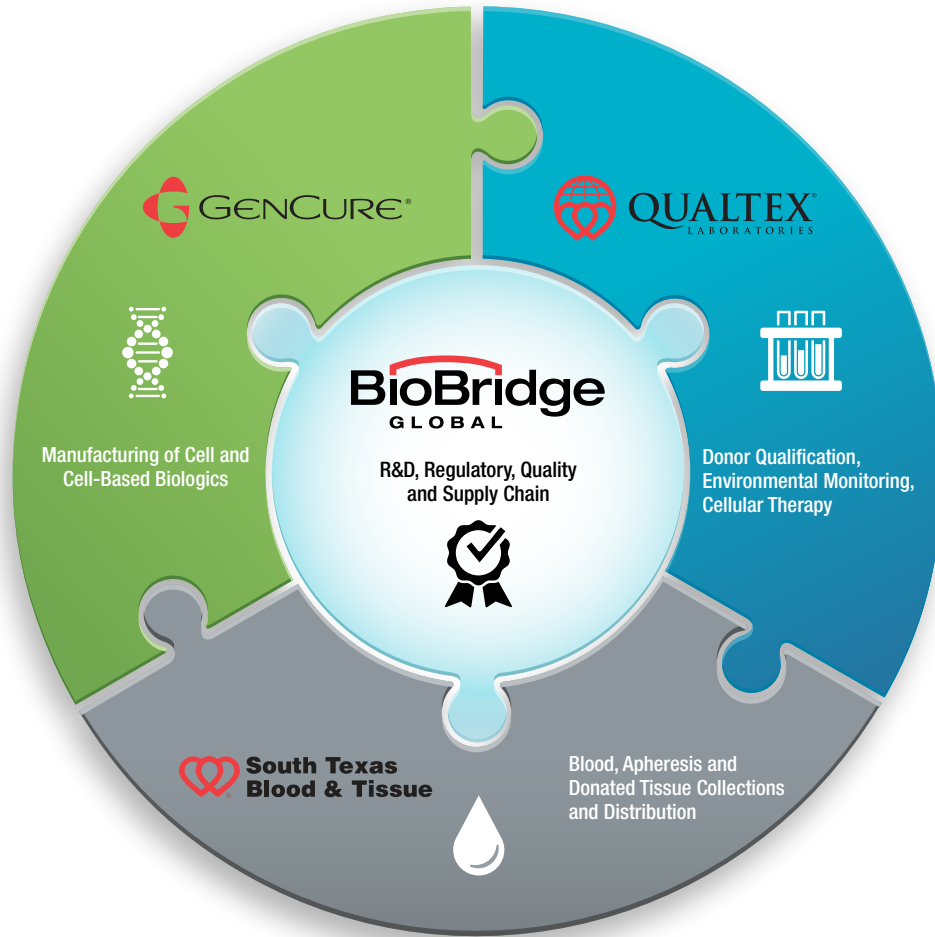

GenCure is a full-service biomanufacturing organization that collaborates with clients to deliver comprehensive, cell and cell-based manufacturing solutions. Leveraging its showcase facility designed to be compliant with FDA, EMEA, and PMDA production requirements, GenCure focuses on translating and refining early-stage processes to scale for commercial readiness.

- ▶ Process development
- ▶ Process optimization
- ▶ Process scale-up
- ▶ Commercial production planning and support
- ▶ GMP manufacturing (master cell bank, working cell bank, drug substance, drug product, specialty media and supplements)

INTEGRATED DONOR-TO-PATIENT SERVICES

BioBridge Global operates an integrated quality management system that complies with the requirements of ISO 9001:2015. The organization serves customers on four continents and is in compliance with numerous U.S. and international regulatory agencies.
